BIT JET ENHANCEMENT SUB – 1630-600 Series

The Coil Solutions Well Enhancement Sub is designed to provide a means of cleaning debris between the Coil Tubing / Jointed Pipe and Casing / Open hole within the well.

The pulse action from the sub helps move all types of debris up the well bore to help keep build up of trash to a minimum.

- Enhance fishing applications
- One piece sub
- No moving parts
- Robust Design
- Comes in a variety of sizes and thread combinations
- Minimum down time for redress
- Cost effective
