

# COIL TUBING PRODUCTS

## Bow Spring Centralizer - 1200 Series

The Coil Solutions Bow Spring Centralizer was designed to centralize the BHA inside tubing or casing after it has passed through a restricted ID. The centralizer springs are designed to be retracted at all times.

- Full flow capabilities
- Various casing and tubing sizes
- Allows passage of activation devices (drop balls, darts etc)
- Tools for all well conditions
- Ease of passage through restrictions and prevents sticking
- Can be adapted to existing Bottom Hole Assemblies

\*Note. All values are rated for STD material.
