## Centralizers - 1015 Series

The Coil Solutions Fluted Centralizer gives the bottom hole assembly stand off from the casing wall to prevent wear from the tool drag.

### Features

- Nitrated body parts
- Comes in a variety of sizes and thread combinations
- Cost effective

### Benefits

- Longer tool life
- Desired positioning in the bottom hole assembly
- Can be adapted to existing bottom hole assemblies
- Minimal down time for tool inspection

\*Note. STD material
