

COIL TUBING PRODUCTS

Grapple x Knuckle X Cable Connector - 50 Series

The Coil Solutions Grapple x Knuckle x Cable Connector was designed for extra flexibility needed to pull coil tubing over the gooseneck and into the injector or moving coil back to the reel.

- Knuckle joint internal grapple connector
- Cable on connector can be length of choice
- Nose cone guided entry
- Coil can be smoothly threaded over gooseneck and through injector
- Can use any existing unit cable systems
- Smooth transition over gooseneck into injector chains

*Length of cable can be ordered to desired length.

*Note. All values are rated for STD material.

Coil Size (in)	2"	2 3/8"	2 5/8"	2 7/8"	3 1/4"
Wall Thickness (in)	.125"-.204"	.125"-.204"	.125"-.204"	.125"-.204"	.156"-.204"
Tensile Strength (lbs)	2,800	5,000	5,000	5,000	7,800
Cable Size (in)	3/8	1/2	1/2	1/2	5/8

*Other sizes and variations upon request.
