

COIL TUBING PRODUCTS

Mechanical Drive Tool - 500 series

The Coil Solutions Mechanical Drive Tool was designed to mechanically rotate while setting down weight.

The tool can be used for rotating and locating a fish within the well bore and or to avoid liners, profile ledges and other obstructions with the well.

- 360 Degree rotation
- Robust design
- Heavy duty fishing applications
- High pulling capabilities

*Note. All values are rated for STD material.

Tool OD (in)	1.688	2.125	2.875	3.125
Connections	1" AMMT	1 1/2" AMMT	2 3/8" PAC	2 3/8" REG
Tensile Strength (lbs)	36,500	44,100	120,000	250,000
Torsional Output (ft/lbs)	172	244	1540	1540
ID (in)	.375	.620	.812	.812
Length (in)	26.9	29.1	34.5	35.15
Working Pressure (psi)	5000	5000	9500	9500

*Other sizes and thread variations upon request.
