

COIL TUBING PRODUCTS

Roll-On Threaded Connector - 700 Series

The Coil Solutions Roll-On Threaded Connector was designed to attach the BHA at the end of the coil tubing by internally crimping the coil to match the crimping grooves provided. Three o-ring grooves are provided for high pressure applications.

- Fast & easy to redress
- High tensile applications
- One piece design
- Slimline applications
- Non Rotational available

*Note. All values are rated for STD material.

Tool OD (in)	1 ¼	1 ½	1 ¾	2	2 ⅝
Connections	¾ MT	1 MT	1 MT	1½ MT	1½ MT
Tensile Strength (lbs)	23,000	54,000	86,000	110,000	180,000
ID (in)	.625	.750	.750	1.0	1.0
Length (in)	4	5.25	5	4.5	6
Working Pressure (psi)	6000	6000	6000	6000	8000

*Other sizes and thread variations upon request.
