

COIL TUBING PRODUCTS

Test Subs (Flow) - 1055 Series

Coil Solutions Versatile and Rugged Pull/Pressure Test Sub.

- High tensile pull testing of connectors and tool string
- High pressure testing of connectors and tool string
- Flow testing can be performed while pull testing without compromising the connector or the tool string
- Test connector and service string for downhole tensile capability
- Check for static leaks on tool before entering well
- Less downtime for test setup

*Note. All values are rated for STD material.

Tool OD	Various Plate O.D'S				
Connections	2 3/8" PAC	2 3/8" REG	2 3/8" EUE	2" NPT	Various Combinations
Tensile Strength (lbs)	200,000	300,000	140,000	120,000	Thread Consideration
Torsional Strength (lbs)	N/A	N/A	N/A	N/A	N/A
ID (in)	1.375	1	1.9	1.9	Thread Consideration
Length (in)	6.50	6.50	6.50	6.50	Thread Consideration
Working Pressure (psi)	10,000	10,000	10,000	10,000	Thread Consideration

*Other sizes and thread variations upon request.
